Design for peace **DESIGN THE CHANGE YOU WANT TO SEE IN THE WORLD.**

Project for awarding grants for young Ukrainian refugees hosted by Italian architecture firms

NOTICE OF EXPRESSION OF INTEREST

1. INTRODUCTION

The Russian invasion of Ukraine has sparked one of the worst humanitarian crises in decades. Approximately 5.3 million people – more than 10% of the country's total population – have had to flee to other countries. More than 125,000 people have reached Italy, with a clear prevalence of women, due to the ban on men between the ages of 18 and 60 leaving the country.

Some of these refugees are architects, designers and students of architecture who have had to leave not only their cities and their loved ones but also their professional studies and the work they were doing.

Their skills are the foundations that can enable them to regain that autonomy to which every human being is entitled in order to feel part of this world, to take their place in it and contribute to it.

These young students, planners and designers have seen their cities destroyed and their only desire is to be able to return to their country as soon as possible and start rebuilding it, hopefully better than before.

The contribution of the community of Italian architects, planners, landscapers and conservationists can be crucial in helping them achieve this desire, through the extremely powerful weapons of creativity, design and cooperation.

“Design for Peace”, therefore, is a project that aims to start a path to define a vision of post-war reconstruction of Ukrainian cities.

The project, proposed and managed by the National Council of Architects, Planners, Landscapers and Conservationists, a public non-economic body at the Ministry of Justice, and the Association of Architects, Planners, Landscapers and Conservationists of Rome and its Province and implemented in cooperation with the Ministry of Development of the Communities and Territories of Ukraine through the Embassy of Ukraine in the Italian Republic, involves awarding 10 grants to ten young Ukrainian students and architects, who are to be selected through this Announcement.

2. SUBJECT OF THE PROCEDURE

This procedure for expressing interest calls for awarding 10 grants to ten young Ukrainian students and architects under the age of 35 who have found refuge in Italy following the events of the war and who have already identified ten Italian professional firms with which they have made a hospitality agreement.

Workshops will be set up on recovery and re-design projects of some of the iconic locations of the Ukrainian cities hit by the violence of the ongoing war. The planned locations will be directly designated by the Ministry for the Development of the Communities and Territories of Ukraine through the Embassy of Ukraine in the Italian Republic.

3. BENEFICIARIES

The expression of interest is directed at Ukrainian architects and students of architecture, aged 35 years or under, currently on Italian soil with refugee status or under temporary protection after 24 February 2022.

These Ukrainian architects and students of architecture must have already identified just as many Italian professional firms willing to offer hospitality, technical support and know-how for workshops and the definition of the projects. These firms will have to identify and provide an architect tutor with a degree aged under 35.

4. REQUIREMENTS

- In order to be able to participate in this Notice, the interested parties must meet the following mandatory requirements:
 - Ukrainian nationality;
 - currently present on Italian soil with recognized refugee status or under temporary protection in connection with the outbreak of the war in progress (February 2022);

The grants will therefore be awarded to the first 10 applications received in chronological order, which have been found to comply with the required mandatory requirements.

8. EXHIBITION AND PUBLICATION OF THE WORKSHOP RESULTS

At the end of the workshop period, presumably by April 2023, the projects will be collected, published in a specific catalogue and presented in a dedicated exhibition to be held in Rome, at the Roman Aquarium, headquarters of the Association of Architects, Planners, Landscapers and Conservationists of Rome and its Province.

9. OTHER INFORMATION

For the duration of the workshop, the beneficiaries of the grants shall not in any way be included in the staff of the hosting professional firm, and the relationship of cooperation shall not in any way be an employment contract.
